DETAILED ACTION

1. Receipt is acknowledged of the Response received on 16 December 2005.

Allowable Subject Matter

2. Claims 33-39 and 55 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest to one of ordinary skill in the art, in conjunction with all the other limitations of the subject claim(s) and any claim(s) upon which the subject claims depend: the details of the self checkout station including a portable terminal interface at the customer operated automated payment accepting subsystem for communicating directly with the terminal to identify the portable terminal. All remaining claims indicated as allowable are either directly or indirectly dependent upon the claim(s) specifically referred to above and are allowable for the same reasons.

The Examiner notes that though the prior art of record taught taking the portable terminal to a rack where a receipt could be printed, and therefore does not teach direct communication, or embodiments were taught where the terminal was brought to the cash register directly and therefore did not teach details of the base station as claimed. Additionally, the art to Howell et al. teaches reading a barcode on the terminal at the checkout, but does not qualify as prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Howell et al. (US 2003/0195818) and Saito et al. (US 2001/0014870).
